

Fleetdown Curriculum Statement

Art and Design

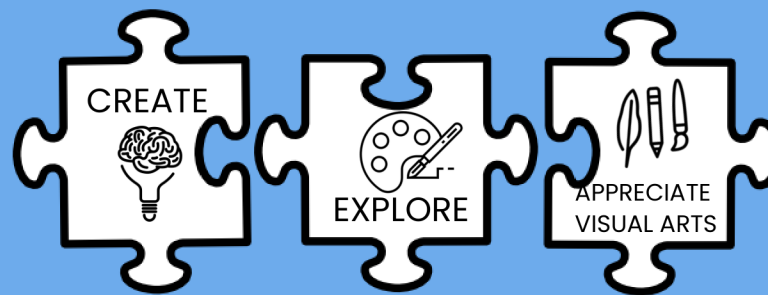

Purpose

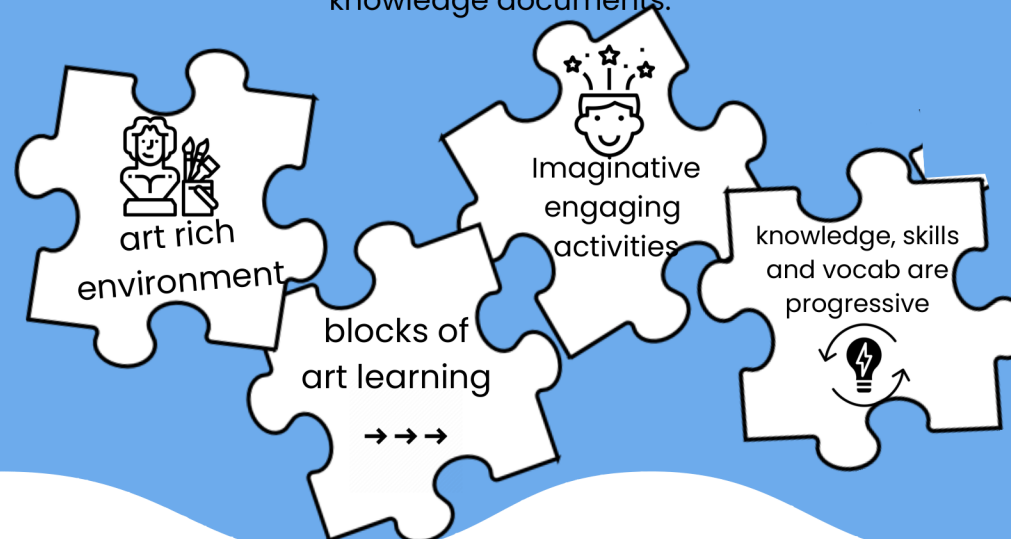

Our art curriculum intends to inspire, engage and challenge children through a termly topic. Children are given opportunities to develop their art knowledge, skills and vocabulary.

Children take influence from well-known artists to create their own pieces using a range of techniques.

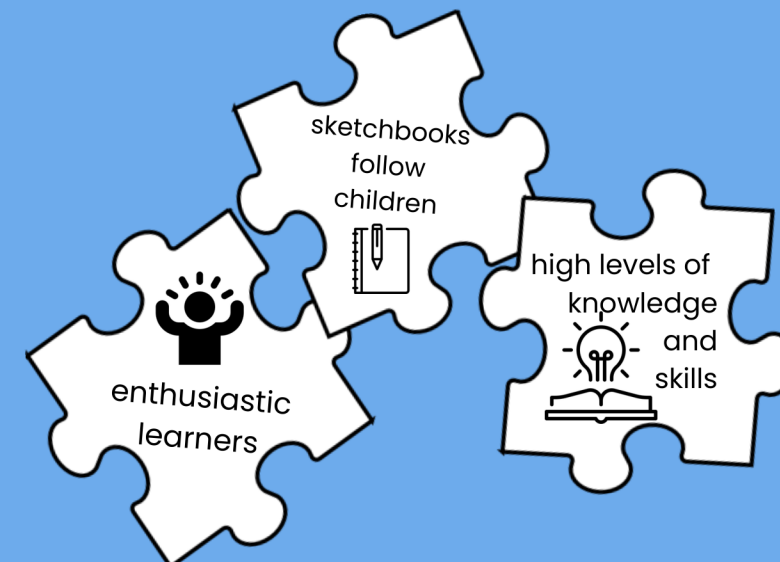

Implementation

At Fleetdown, our curriculum is delivered through the vehicle of a termly topic. This topic is used to deliver a curriculum which develops skills, knowledge and vocabulary progressively over time. Termly learning is outlined for children in their sticky knowledge documents.

Impact

Our children show high levels of knowledge and skill in art and design. They have sketchbooks which clearly show their progress and are able to discuss their learning with enthusiasm and confidence.
