

Fleetdown Curriculum Statement

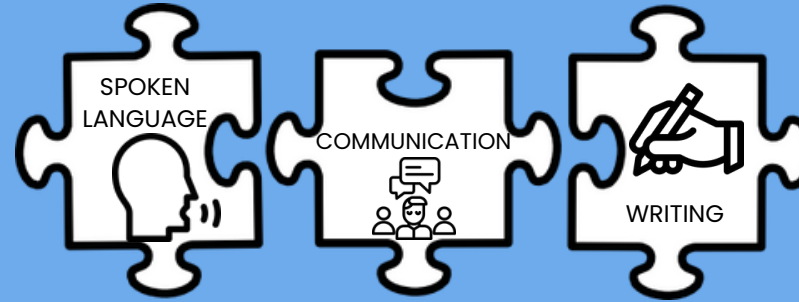

ENGLISH – WRITING

Purpose

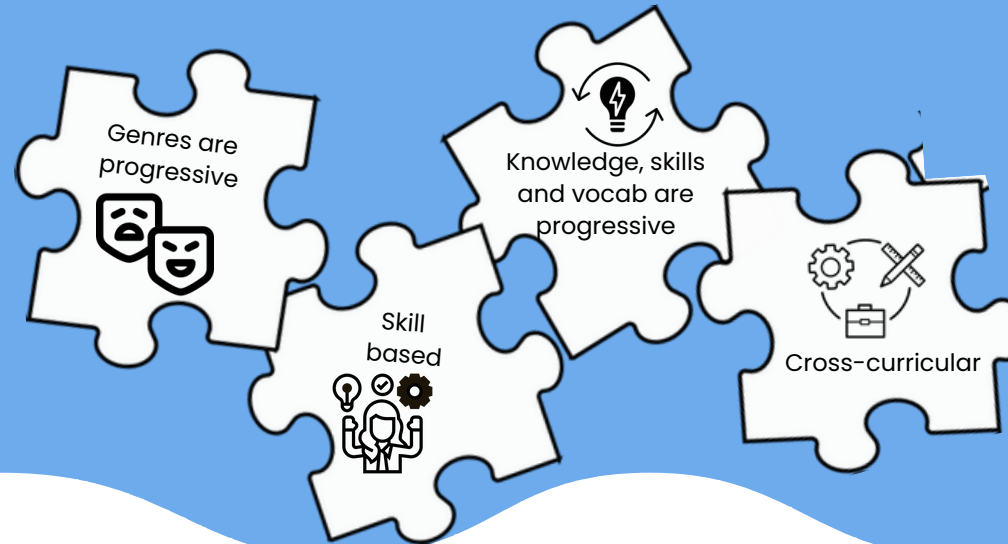

Our English curriculum, is promoted through a language-rich environment developed through a focus on stories, discussions and spoken language. We want every child to enjoy writing and develop the skills necessary to become confident and enthusiastic writers, being able to identify the purpose and audience for every piece of writing.

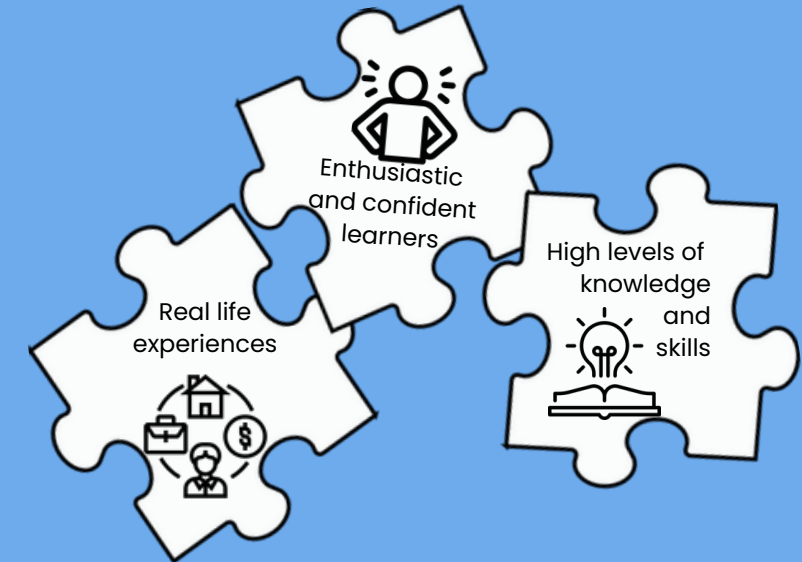

Implementation

Our English curriculum progression is clear and the writing genres are progressive. Transitions between year groups have less gaps in knowledge, so the learning will show progression. Texts are carefully selected to support the writing opportunities and the progression of skills documents are used as a tool for planning.

Impact

Our children show high levels of knowledge and skill in English. Their English books clearly show their progress and they are able to discuss the genres of writing thinking about the audience and purpose with enthusiasm and confidence.
