

Fleetdown Curriculum Statement

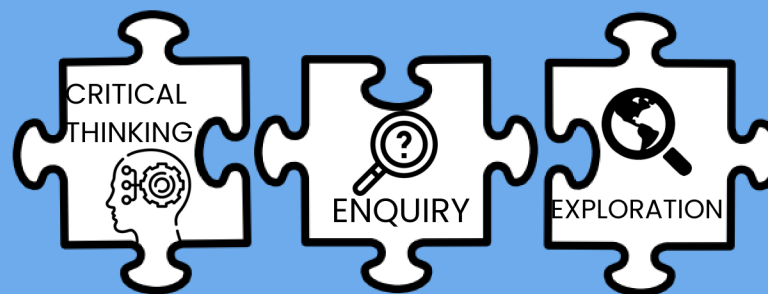

SCIENCE

Purpose

Science at Fleetdown aims to encourage children to recognise the power of rational explanation. We immerse our children in exciting science lessons; developing a sense of curiosity about themselves and the world around them.

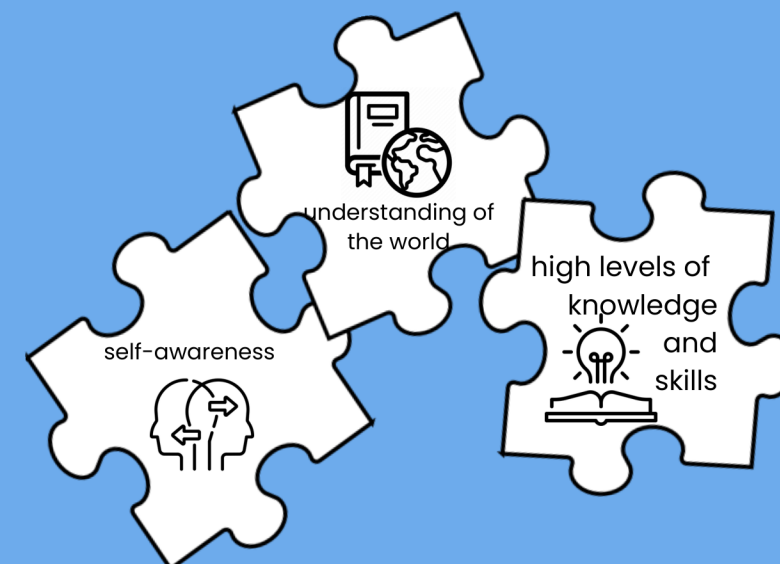

Implementation

At Fleetdown, science is taught through weekly lessons. Each lesson is designed to cover the objectives of the national curriculum in an engaging, active way. Vocabulary and knowledge are progressively taught, alongside key skills for working scientifically.

Impact

Children at Fleetdown show a keen interest in the world around them and ask insightful questions about the natural world. They display a high level of knowledge and skills and exhibit a good understanding of themselves and their world.
